

Welcome to
Miles Ahead Youth Organization Inc!

Miles Ahead Youth Organization Inc. (MAYO) was established in as a non-profit organization to help instill crucial life lessons, through competitive basketball, to young men ages nine through fourteen. We intend to be the program of choice, offering superior coaching and development for all, regardless of their economic status.

Our organization operates within two sectors:

- **Miles Ahead Youth** which emphasizes the importance of education and provides premier educational programs.
- **Miles Ahead Sports** which hosts tournaments, sports reporting, coordinates and develops basketball players for competitive games for AAU/YBOA to compete nationally. It also emphasizes player development through various camps and clinics.

These two branches coincide to teach important life skills such as sportsmanship, leadership, respect, maintaining a positive attitude, and the importance of education. These young men will learn to exhibit these vital lessons simultaneously with learning the fundamentals of basketball. Our theory is that of encouraging the players to give their best, play hard to win, but to do so with dignity and class. It is our belief this will build character and follow them well into adulthood.

Our coaches operate with the goal in mind to assist and support these young men to become not only the best players they can be, but also to strive to be the best men they can be.

Thank you for visiting our website! We extend an invitation for you to view the rest of our site and learn more about this dynamic organization and all it has to offer!
