

"Bringing the Future Present"

It is our intention to combine the below outlined mission, vision, and values in an effort to support our youth in their journey of becoming the successful leaders of tomorrow.

Our Mission

The Miles Ahead Youth Organization will provide a solid foundation upon which children, regardless of their economic status, can build strong character and achieve their goals. We will do this through providing essential educational and athletic opportunities.

Our Vision

Our vision is to prepare our leaders of tomorrow by showing them they can achieve any goal they set for themselves. They will clearly understand that through preparation and perseverance, both mentally and physically, anything is possible. They will be motivated to explore and utilize the educational and financial resources that are at their disposal, causing them to excel in all they do.

Our Values

Our core values are two-fold. First, every child deserves a chance to achieve their dreams. Secondly, it is better to give than to receive.
